GENEVA, IL – TriCity Family Services (TCFS) is pleased to announce that they have been awarded with a \$12,500 grant from the Community Foundation of the Fox River Valley. The agency thanks the Community Foundation for this generous gift which will be utilized for the replacement of their Management Information System. The Community Foundation of the Fox River Valley is a collection of individual funds and resources given by local citizens to enhance and support the quality of life in the Fox River Valley.

The replacement of TriCity Family Services Management Information System will ensure that the agency fulfills a mandated conversion to electronic medical records, receive reimbursement for services rendered, and better financially track service delivery. The purchase of a new MIS system will also enable the agency to significantly improve their capacity for electronic billing of third party payers, which will reduce their overhead costs associated with manual billing.

TriCity Family Services (TCFS) is a trusted partner for counseling and other mental health services for children and teens, their families and community members across all life stages. Regardless of income level, members of the TriCity community have access to our full spectrum of services. Our unique family-centered approach seeks to involve all members of the family in treatment, and we are a local leader in engaging children and teens in early intervention and prevention programs. Through our services and support environments, our multi-dimensional approach seeks to strengthen the entire TriCity community by promoting lifelong mental health.
